Please respond to the school data questions on the second page of this form. This information is important in tracking the populations serviced.

Please describe your school in terms of the following:

Is your school urban, rural, or suburban?

What is the size (student population) of your school?

What is the average class size?

Does your school have a magnet or specialty focus?

Describe your technology facilities. To what equipment do you have access to?

Do you have technical support available? Please describe.

Have there been successful collaborations between teachers in your school in the past? If yes, briefly describe.

Send completed form to:
