HANJI *Translated*

Hanji Translated is a transnational exhibition that aims to uniquely connect 13 exceptional contemporary artists from India, Korea and the United States, who work with hanji in their fine art practice. The concept of translation presents itself in two ways - paper transformed from one material form to another and paper used as a mode for translating life experiences.

The exhibition focuses on the versatility of *hanji* as a medium for art and aims to examine concepts relating to transcultural communication and issues relating to history, identity, migration and memory.
